

BIOGUIDE

Staff Contribution Workflows

Document Date: September 19, 2026 (Revised September 2026: Director title, standing contribution policy)

Standing Policy: Contribute Whenever Free

Every staff member is encouraged to contribute using any of the workflows below whenever they have free time to do so. This is separate from, and does not replace, specific work assigned by management, which takes priority when given.

Master: Idea Contribution

All ideas for BiOGuide improvements and new features should be submitted through the master contribution spreadsheet. Management will review and provide appropriate consideration upon submission.

Access: *Master Contribution Spreadsheet*

A BiOGuide Social Content Contribution

Contribute to finalizing videos for BiOGuide Instagram and YouTube pages by adding explanations of problems of the day or creating explanations of fascinating biological concepts and Olympiad prep guides.

Workflow Steps

1. Visit the master contribution spreadsheet (link above)
2. Navigate to the InstaReels sheet
3. Read the script and watch the video in the drive folder for context
4. Add your name to the dropdown list if you accept the quotation
5. Record your contribution (preferred: facecam speaking the script; also accepted: audio only)
6. When complete, highlight the row green for done, or yellow for work in progress
7. Upload your recorded file according to the script in the drive folder with your initials in the filename

B Question Bank Population

Help populate the BiOGuide Question Bank by organizing and uploading questions sourced from various competitions and problem sets.

Workflow Steps

1. Find questions and save them in the appropriate question subtopic and topic directory
2. Categorize by difficulty by creating folders: Hard, Easy, Moderate
3. Save questions with naming convention: Qno._by_YourName_CompetitionSourceName.filetype
4. When possible, also create a solution file: Qno._by_YourName_Solution.filetype
5. Contribute at your own pace, we have lots of work available!

Folder: *BiOGuide Question Bank Folder*

C Content Review Workflow

All website reviews, content feedback, and suggestions are welcome and valued contributions to improving BiOGuide.

Submission Process

1. Prepare your review, feedback, or suggestions (as a document or file)
2. Forward directly to the Director
3. Also mention your contribution in the master contribution spreadsheet's Feedback sheet

D Moderation Workflows

As sections like BiOrchive, BiOLab, and Doubts grow, staff can help moderate submissions and maintain community standards.

Access & Process

1. Log in to the website using your staff account (confirmed account with management)
2. Navigate to the relevant section that needs moderation
3. Review and moderate submissions according to BiOGuide community guidelines

E BiOrchive Contribution

BiOrchive is our repository of peer-reviewed biology research papers. Detailed contribution guidelines are available in the project repository.

Getting Started

1. Read the CONTRIBUTING_PAPERS.md file in the BiOGuide repository for detailed guidelines
2. Request the contribution template spreadsheet from management (template available without code option)
3. Follow the template structure for submitting papers

F BiOClash Contribution

BiOClash is our original biology Olympiad competition with problem sets based on real research papers.

Access: This is a restricted contribution area. Contact management for clearance and contribution details.
